## Description:

### *Developing Instinctive Analytical Skills in Students*

*Becoming a Critical Thinker: A User Friendly Manual* trains students to distinguish high-quality, well-supported arguments from those with little or no evidence to support them.

It develops the skills required to effectively evaluate the many claims facing them as citizens, learners, consumers, and human beings, and also to be effective advocates for their beliefs.

## Teaching and Learning Experience

*Improve Critical Thinking* - Coverage of persuasive speaking, decision-making, the Toulmin model of argumentation, and chapter-end writing and speaking exercises all teach students to construct and present arguments so that they can gain skill and confidence.

*Engage Students - Becoming a Critical Thinker: A User Friendly Manual* exposes students to a variety of contemporary and multicultural issues, engaging their understanding of analytical skills through the use of articles and varied examples.

*Support Instructors* - Teaching your course just got easier! You can create a Customized Text or use our Instructor's Manual, Electronic "MyTest" Test Bank or PowerPoint Presentation Slides. PLUS, our new Instructor's Manual has been updated and expanded with revised tests and answer keys, a discussion of chapter exercises, and suggestions for teaching critical thinking concepts.
