**Description:**

**Review** "As hope wars with loss, this gripping, psychological thriller never loses focus. Though Crewe's story can be gruesome and horrifying, she escapes the trap of making events too depressing and hopeless, maintaining a strong sense of realism throughout." -*Publishers Weekly*

"Crewe utilizes a less-is-more approach, subtly closing the walls in on the characters as they run out of resources... Readers will root for the believable characters struggling through heartbreaking

situations." -*Kirkus Reviews*

"This is the kind of book that makes you look up in alarm when someone near you snuffles. It viscerally conveys the horror of sudden, brutal illness and the struggle between being humane and saving your own skin." -*Booklist*

"The book offers a compellingly tight focus, relating the town's descent into chaos with heartbreakingly vivid details.... The inclusion of more quotidian elements, such as Kaelyn's emerging romance with a local boy and her reconciliation with a former foe, make the survival story even more harrowing." -*BCCB*

"With elements of social commentary on the human reaction to panic and fear, a tender first love story, and a thrilling survival story, *The Way We Fall* will hook readers from page one. Crewe has masterfully created a tale so suspenseful that when the last page is read, readers can only hope that there is more to come." -*CLCD*

**About the Author Megan Crewe** ([www.megancrewe.com](http://www.megancrewe.com)) finds writing about herself much more difficult than making things up. A few definite facts: she lives in Toronto, Canada, with her husband and three cats (and does on occasion say "eh"); she tutors teens with special needs; and-thankfully-the worst virus she's caught so far is the garden variety flu. She is also the author of *Give Up the Ghost*.
