Description:

From the Publisher My Inventions has been the primary source for all Tesla biographers. Editor Ben Johnston has a 16 page introduction that traces Tesla's career through a maze of sensationalism and controversy.

From the Back Cover The reclusive, brilliant engineer who:
Invented the Niagra power system that made Edison's obsolete Sold Westinghouse 40 patents that

broke a General Electric monopoly Discovered the radio methods that Marconi converted into a fortune Built a radio-guided torpedo before Ford ended the horse-and-buggy era Tried, with J.P. Morgan's backing, to change the earth's electric charge! Joined giants Ampere, Watt, and Volta in history's most select circle when the world scientists named a new unit of magnetism and Tesla.
