Description:

Roald Dahl's classic children's novel is now a motion picture from The Walt Disney Company, and this version of **James and the Giant Peach** grew out of the making of the movie. Lane Smith, conceptual artist for the film, has given James and company a new and arresting look, much in the style of his many highly regarded books, such as Math Curse and The Stinky Cheeseman. Karey

Kirkpatrick, the film's screenwriter, created a text that is true to the spirit of Dahl's original, and deftly pulls young readers into the remarkable story. All in all, it's a peach of a book sure to be the pick of every child's bookshelf! --This text refers to an out of print or unavailable edition of this title.

From Publishers Weekly Lane Smith trades stinky cheese for fantastic fruit with his black-and-white illustrations for Roald Dahl's classic 1961 novel, *James and the Giant Peach*. The reissue is timed to coincide with the release of the Disney animated motion picture based on Smith's suitably subversive visual interpretation.
